REDMOND ASSOCIATED ADVOCATES Announce Strategic Partnership with Alfred Habaasa to launch Uganda's first fully integrated tax practice.

Kampala, Uganda – November 4th, 2025 – REDMOND Associated Advocates, one of Uganda's most sought-after and rapidly growing law firms, today announced a landmark strategic partnership with Alfred Habaasa, one of the country's most accomplished tax practitioners with over a decade of expertise gained at a Big Four audit firm and the Uganda Revenue Authority. This collaboration immediately establishes **REDMOND TAX**, Uganda's first fully integrated practice for taxation services, which will combine Mr. Habaasa's deep knowledge in **Tax Advisory, Compliance, and Reporting** with the proven legal and litigation strength of Redmond Associated Advocates. This collaboration creates Uganda's first fully integrated practice for taxation services.

"This collaboration represents a transformative moment for taxpayers seeking to navigate the complex taxation compliance and legal landscape," said Gilbert Katwiire, Managing Partner at **REDMOND Associated Advocates**. "This partnership moves beyond the old, fragmented Silo model of "accountants vs. Lawyers". Alfred's deep accounting and tax knowledge, coupled with our legal prowess, allows us to offer clients a true one-stop solution. We are integrating both the accounting and legal aspects of taxation into a single, seamless practice, ensuring maximum value and efficiency for every client."

"This partnership brings unmatched breadth and expertise, and together by breaking the **'Silo model'** of operation in tax services, we're creating a partnership that helps clients obtain more value for the same fees in an increasingly complex tax environment" added Kennedy Kushaba, Partner at **REDMOND Associated Advocates.**

REDMOND TAX practice will operate independently in affiliation with REDMOND Associated Advocates.

"Starting my career at Ernst & Young (EY) in 2015 honed my skills in tax advisory. Over the last six years at the Uganda Revenue Authority (URA), I've been dedicated to spearheading international tax and transfer pricing compliance in the sophisticated Oil and Gas space, while also shaping national tax policy in petroleum and mining. As both a lawyer and an accountant, I understand how essential it is to pair robust legal guidance with accurate accounting and financial reporting to create true client value. With the creation of REDMOND TAX, I firmly believe the ultimate winner will be the client" said **Alfred Habaasa**, who will lead REDMOND TAX practice.

"Taxpayers often struggle to coordinate between their legal counsel and tax accountants, **REDMOND TAX** is eliminating that friction entirely," Gilbert added. "When clients work with us, they gain a seamless integration of compliance obligations, tax advisory, and tax strategy. And when disputes arise, REDMOND Associated Advocates, steps in to seamlessly provide the necessary legal defence. We cover the full spectrum".
